The Ecojoy SmartZone-2L is a great control board kit for simple 2-zone systems. With the 2 nd stage lockout, you can eliminate the need for a bypass duct that can hold moisture and grow mold. The board is more affordable than the X line (our top picks) but lacks the ability to pair with other boards for adding more dampers.

NJ Mills, in Polymer Foams Handbook, 2007. 9.3.4 Crash safety. The front and rear crumple zones of a car are designed to collapse at a force which transmits a 20 g horizontal deceleration to the rigid passenger cage. During a frontal impact, the seat cushion shears because the seat belts do not restrain body motion until their slack is taken up.
