A tightly constructed, psychologically incisive commentary on race relations in the early decades of the 20th century, Passing (1929) is the single best-known work of African-American novelist Nella Larsen. On one level, the book is a study of a fraught social choice: the decision that an African-American woman, Clare
Kendry, makes to leave black society and "pass" as white.

Don’t forget to use the right units in your answer. Look at the word problem or data table for your units. Velocity is a
rate, so you will always have some unit per time unit: \( \text{m/s, km/hr, etc.} \)

Acceleration is a rate of velocity, so the time unit will usually be squared: \( \text{km/hr}^2 \text{ m/s}^2 \) etc.
