World Poverty The Roots Of
Different poverty levels. Poverty lines shown here include $1 a day, $1.25 a day, $1.45 a day, $2 a day (typical for many developing countries), $2.50 a day (which includes a poverty level for some additional countries), and $10 a day, which a World Bank report referred to if looking at poverty from the level of a wealthy country, such as the US.

Poverty Around The World — Global Issues
Poverty is the state of having little material possessions or income. Poverty can have diverse social, economic, and political causes and effects. When evaluating poverty in statistics or economics there are two main measures: Absolute poverty measures compare income against the amount needed to meet basic personal needs, such as food, clothing, and shelter.

Poverty - Wikipedia
World hunger is a terrible symptom of world poverty. If efforts are only directed at providing food, or improving food production or distribution, then the structural root causes that create hunger, poverty and dependency would still remain.

Causes of Poverty — Global Issues
Causes of Poverty. In the war against poverty it is crucial to understand the underlying causes of it; for only tackling the roots of the problem one can provide a final solution to it. This is especially useful to remember when considering that although poverty is a global issue, there is no blanket cause for it.
